

EXECUTIVE BUSINESS ROUNDTABLE

LET'S DANCE: CHOREOGRAPHING CYBERSECURITY COLLABORATION FOR CRITICAL INFRASTRUCTURE PROTECTION

As the leap into the digital space continues to accelerate, critical infrastructure cybersecurity protection stands out as a crucial challenge in every domain. What are the biggest challenges facing the protection of critical infrastructure today? What are the new practices and technological innovations that can counter potential cyberattacks? How can the private sector, academia and governments work together to implement effective cybersecurity measures? Join us and our expert panelists for an engaging conversation on the ways in which cybersecurity is facing its most pressing challenges.
