

MANIFOLD

Junior Software Engineer Intern

A full-time internship opportunity at a venture holding company

Manifold Group is a venture holding company based in Chicago with offices in Dallas, Los Angeles, and soon Atlantic Canada. We employ a hybrid in-office / remote working style, although we're fully remote at least until May 2021 and likely until September 2021 in Atlantic Canada.

As a Junior Software Engineer Intern you will join our distributed team of engineers working on a variety of internal, partner and client projects.

Responsibilities

- Work with internal product, design, and engineering teams to design and develop software components;
- Collaborate with leads to define and estimate development timeframes and identify dependencies and areas of risk to be considered in project planning;
- Participate in daily stand-ups for project engineering team;
- Track work progress in development task boards;
- Work within a fast, iterative, agile development workflow;
- Be open to learning and using whatever technologies are needed. We are pragmatic--as opposed to philosophical--about our tools.

MANIFOLD

We are looking for:

- 0–2 years of experience working and/or training as a software engineer;
- Ability to communicate well with individuals and groups to accomplish a common set of goals;
- Experience working with a modern Javascript or TypeScript framework such as React or Angular, and/or a server side language such as Java, Scala, C#/ASP.NET, NodeJS, PHP, Ruby or Golang;
- Experience with a cloud platform such as AWS, GCP or Azure is ideal.

Tools we use:

- We prefer AWS but will build on GCP, Azure or Heroku for our clients;
- Git/Bitbucket;
- We like React but also use Angular;
- We have production applications utilizing Python, PHP, Golang, NodeJs, Java, Swift and more;
- Jira/Slack/Zoom;
- The personal machine of your choice (Mac/PC/Linux).

About Manifold

Manifold Group is a venture holding company based in Chicago with offices in Dallas, Los Angeles, and soon Atlantic Canada. Manifold Group represents a new model

MANIFOLD

designed to create and capture value at the early stage. Launched ten years ago, Manifold has three divisions:

Manifold Ventures invests in extraordinary founders and provides strategic guidance to our portfolio to maximize asset value creation.

Manifold Studios partners with extraordinary teams to conceive, build, and scale high growth ventures.

Manifold Advisory partners with enterprise clients to help them adapt and grow in the context of an increasingly disruptive economy.

Details and Benefits

- Competitive pay based on the work you do here and not your previous salary;
- Full time contract position, month-to-month. We're growing, so there's a reasonable chance to convert to full-time for exceptional performers (but no promises);
- Interns that successfully convert to full-time employees will receive:
 - Paid health insurance plans, as well as dental and vision plans;
 - RRSP with employer matching;
 - Open PTO policy;
 - Paid maternity/paternity leave.

We welcome people from all backgrounds, identities, cultures, and experiences. Different people approach problems differently. We like that. We also know that the impostor syndrome and confidence gap are real. Please do not hesitate to apply!

MANIFOLD

This internship is funded by the Government of Canada under its Digital Skills for Youth (DS4Y) program. DS4Y, an initiative from Innovation, Science and Economic Development Canada (ISED), provides an opportunity for youth to gain valuable training and work experience needed for today's digital economy.
