About Sandbox Inc. | Think. Create. Connect.

Sandbox Inc. is a digital media agency working with organizations around the world that aim to improve people’s lives. The three parts of our company—Sandbox Agency, Sandbox Labs and Sandbox Media—intersect to allow us to blend technology and storytelling to create new pathways to knowledge, stir curiosity and make an impact.

We work alongside not-for-profit and humanitarian aid organizations, academic institutions and researchers, forward-thinking private companies and the public sector.

About the team:

We are a lean team of media makers, filmmakers, animators, designers, communicators, technologists and operations maestros who work together to get things done. We crave great ideas, we share knowledge and we encourage progress in everything we do.

Sandbox Inc. Core Values:

- Collaboration—We put teamwork at the heart of everything we do.
- Impact—We seek to drive progress and spark civic engagement.
- Quality—We create with purpose and precision.
- Leading by Learning—We keep evolving—embracing challenges as we chart new paths.

The Role

As a jr. software developer, you will have the opportunity to work on a multitude of projects. In some cases, you may be building a webpage or interactive module for one of our clients, but in other cases you may be working on some of our internal web projects. Our client projects often have a quick turnaround time, so we’re seeking someone who can work efficiently and with minimal supervision.

Qualifications + Skills
