

Title: Digital Reporter

About Huddle: Huddle is a Maritime online business publication that tells the stories of the creative, innovative, and interesting entrepreneurs working in the Maritimes. We report on the issues and events that help or hinder their ability to create wealth and employment. Huddle has a broad definition of entrepreneurship, knowing that it exists in many sectors, including but not limited to IT, energy, agriculture, tourism, food and beverage, health and culture. We are a news site, and a gathering place for people with ambition who, through their companies and communities, want to help build stronger economies. That includes owners and operators of businesses, people who work for them, and people invested in the success of local companies.

About the position: The Digital Reporter will be part of Huddle's editorial team, researching and producing stories on businesses and economic issues in New Brunswick for publication on our web site. There are strong digital components in this position, which includes covering the vibrant tech scene in communities across the province.

Huddle is a fully digital publication, generating content for a web site and podcast. The reporter will file written, audio and/or video stories using our online content management system; share stories on social media platforms; and monitor story performance using our analytics program. The reporter will also help produce the podcast and learn how to use an online program to record and upload to our podcast platforms.

Required skills:

- Strong written and communications skills
- Post-secondary degree
- Prior experience producing stories for publication
- Interest and ability to engage on social media platforms to share content

How to apply: send a cover letter, resume and samples of published stories to editor Mark Leger: leger.mark@huddle.today

This internship is funded by the Government of Canada under its Digital Skills for Youth (DS4Y) program. DS4Y, an initiative from Innovation, Science and Economic Development Canada (ISED), provides an opportunity for youth to gain valuable training and work experience needed for today's digital economy.
